
mozilla firefox 3.8 download

DOWNLOAD: <https://byltly.com/2iv757>

but there is no taskbar on it erghezi: i have all my bookmarks in firefox-bookmarks.html AbhiJit: not a clean install but a reovery mode erghezi: you could edit the bookmark file. and also be sure to set the bookmarks to sync on all the machines erUSUL, can i boot from usb in it? or i need to install a iso to hd? AbhiJit: yes; you can boot from usb but you need to install grub on the usb first erUSUL, what is hd? AbhiJit: hard drive (windows partition) erUSUL, ok. the wget -O - erUSUL, ok. but if i start live usb in it after installing grub then is it ok to install? Dr_Willis: ok, thanx, i will try :) bye please help me :S you have to download the required files from that link erUSUL, i have installed grub in mbr i don't know how to install tar.gz tar files is this ok? erghezi: i got to reboot.. i dont want to get into the server setup here. :) so im on my laptop now. but i noticed firefox on here has its own bookmarks.html file on it also. abdou, usually you do --->tar xzvf file.tar.gz Dr_Willis: ok ok... :P k why I can not install virtualbox from repositories? i will try it in a minute abdou, and 82157476af
